Through this activity, providers will enhance their skills in the treatment of the adult victim of a cardiac arrest or other cardiopulmonary emergencies. ACLS emphasizes the importance of basic life support CPR to patient survival; the integration of effective basic life support with advanced cardiovascular life support interventions; and the importance of effective team interaction and communication during resuscitation.

The cost is \$95 per person.

Physicians Accreditation and Certification: Coastal Care Medical Management is accredited by the Rhode Island Medical Society to sponsor intrastate continuing medical education for physicians.

Coastal Care Medical Management designates this educational activity for a maximum of *4.5 AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The ACLS Provider Course combines lectures, skills, laboratories and practical examinations needed to evaluate and manage the first 10 minutes of an adult ventricular fibrillation/ventricular tachycardia (VF/VT) arrest. Providers are expected to manage several core ACLS cases including respiratory emergencies, unstable tachycardias and acute coronary syndrome. There is a written/practical exam which you will be expected to complete.

Coastal Care Medical Management fully intends to comply with the legal requirements of the Americans with Disabilities Act. Please indicate if you'll need special assistance in order to fully participate in this activity.

Coastal Care Medical Management has reviewed these activity's speaker disclosures and resolved all identified conflicts of interest, if applicable.

*An additional 1/2 hour of CPR training will be offered during this session. There is an additional \$45 charge. If you need (AHA) CPR certification and plan to attend, please inform your office manager or Miriam Giles.
