

Introducing Digital Mammography

The first and only imaging provider in RI offering your patients 100% Digital Mammography in private convenient office settings.

- Digital Mammography is 27% more sensitive for cancer in women under 50, any woman with dense breast tissue and also pre and perimenopausal women, accounting for 65% of screening mammography (NEJM and NCI data).
- Digital Mammography with our latest generation CAD system detects 34% more DCIS.
- Dramatically shorter exam times and 50% less radiation than systems which use cassettes (traditional film mammography & CR mammography-hybrid digital).
- Available at each of our mammography sites; Warwick, Cranston and North Providence, assuring that your patients always benefit from the latest in technology. Same insurance coverage as traditional mammography and appointments are readily available.
