Good Samaritan Medical Center, Saint Anne’s Hospital and Morton Hospital are seeking BC/BE Adult and/or Geriatric BC/BE psychiatrists to join our expanding, regionally cohesive Behavioral Health departments along the Route 24 corridor of Southeastern Massachusetts. These positions in each of our hospitals will be on our geriatric psychiatric units with some adult and geriatric consultation in the ER and adult Med/Surg units. The Psychiatrists are responsible for oversight of the behavioral health programs as well as for the monitoring and evaluation of quality assurance. The Psychiatrists will provide direct psychiatric services through comprehensive evaluation, diagnosis, treatment planning and treatment of patients assigned to the units at each location.

Additional benefits of these positions include:

- Outstanding call support from per diem physicians to alleviate call responsibility. Call is very limited on weekdays and weekends.
- Our Psychiatrists have strong medical back up through a strong collaborative effort with our Hospitalist program.
- Opportunity to work with a clinically sound and experienced multidisciplinary team at each hospital (including nurses, social workers and allied health professionals).
- Opportunity to build one’s experience and leadership skills within a fast-growing, dynamic service line.
- Experience with the largest provider of inpatient behavioral health services in eastern Massachusetts.

**Medical Directorships available for experienced, qualified candidates.**

In a recent article published August 7th, 2014 in the Boston Globe, it was highlighted that Steward Health Care System is spending millions to open new psychiatric units in its Massachusetts hospitals, filling a gap in mental health care and marking a reversal from the recent years in which hospitals had little interest in expanding these services. Steward has added 40 beds for adults with mental illness or substance abuse disorders in the past nine months, and plans to expand by another 30 beds this year — a total increase of 21 percent.

Steward Health Care System is the largest fully integrated community care organization and community hospital network in New England, headquartered in Boston, Massachusetts.
