POINT LOMA, CALIFORNIA

Michael E. Migliori, MD, Ophthalmologist-in-Chief at RI Hospital, and Chair of RIMS Public Laws Committee, looks at RIMJ at the Cabrillo National Monument in San Diego.

In September 1542, explorer Juan Rodríguez Cabrillo and his crew, sailing for Spain, came ashore in what is now San Diego Harbor and became the first Europeans to set foot on the west coast of North America. The monument sits at the tip of Point Loma nearly 400 feet above sea level with sweeping views of the Pacific Ocean and overlooks metropolitan San Diego to the east.
