

# Help your Patients Keep their Medicaid Coverage

With the Public Health Emergency coming to an end, Medicaid members will need to renew their eligibility with the State of Rhode Island to keep their health insurance.

You can help now by reminding your Medicaid patients to update their account information with their current address and phone number. Medicaid members can update their information by:

- Logging into their HealthSource RI account: <https://healthyrhode.ri.gov/>
- Calling HealthSource RI at 1-855-840-4774 (TTY 711)

Thank you from all of us at Neighborhood for your commitment and partnership in ensuring Rhode Island families keep their health care coverage!

Neighborhood members can scan the QR code to update their address through our new e-form or visit [www.nhpri.org](http://www.nhpri.org)
