Requirements for Images in Clinical Medicine

To be considered for publication, submissions should include:

**Brief title**
8 words or less

**Content**
400–600 words. Relevant clinical information, findings, clinical course, and response to treatment if initiated.

**Images**
Provide 2–6 original, high-resolution images which have not been published elsewhere, separately, and in their original file format. Any identifying information should be removed from the image.

Prior to submission, written permission to publish the images must be provided by the patient if recognizable in the images.

Low-resolution images will not be accepted. Note, images may be reduced to 3–4 inches in width for publication.

**Legends**
All labeled structures in the image should be described and explained in the legend.

**Author Affiliations**
Biographical information for each contributing author must accompany the manuscript submission. Affiliations for each contributing author should be listed in a separate sentence for each. In each sentence include:

- Author name
- Academic, professional degree(s)
- Academic or institutional affiliations
- City and state

**Correspondence**
Include the name, title, and current position of the corresponding author with mailing address, telephone, fax, and e-mail address.
